

THE THIRD TESTAMENT

The Third Testament, the final message from the Father. Compendium of the Teachings of the Divine Revelations contained in the twelve volumes of the Book of True Life, in which, according to His own words, our Lord brought us this Third Testament. My Word will remain written for all time; with it you will form the book of the Third Era, for in the Three Eras, God wielded His Golden Scribes to leave His wisdom to Humanity.

The central message corresponds with that brought by Jesus: in place of outwardly directed religious practices, and of publicly displayed devotion, to say prayers in silence, permitting our acts to be guided by our conscience; and in place of seeking a calculated spiritual and material welfare for selfish motives, to act in an altruistic way for the love of God, man, and of nature and the Divine creation, in which love is manifested and expressed in different ways: consideration, respect, solidarity, affection, consolation, help, and support; instead of a blind and comfortable faith, a living faith, based in spiritual recognition, wisdom and humility.

Do you believe that all I have told you would be only for those who have heard Me? No, beloved People, with My Word I am speaking to those present and to those who are absent; for today, tomorrow, and always. It is the call of God for the renovation and spiritual awakening of human beings. As we open to any page of this present work, we read and feel in our spirits the convincing, wise, and loving words. What human heart can remain untouched by them? The book offers the reader an introduction of more manageable size to this Divine work. Come near if you need Me; seek Me if you feel lost.
